## MESSAGE FROM THE CLUB PRESIDENT 2007-2008

Incoming RI President Wilfred J. Wilkinson's theme for the year is "Rotary Shares"  
He has explained the theme along the lines—

“If one common thread exists among our 1.2 million members is our willingness to share. Rotarians share their time, their talents, their expertise and their money to successfully carry out projects that tackle a vast range of humanitarian and social issues. They share their compassion, their enthusiasm and their commitment to help those in need and make the world a better place.

Sharing is a concept generally associated with promoting the greater good, but it is also an individual action, a personal choice. Each one of us decides how much of our time and energy we want to share with Rotary.

The dedicated Rotarians who develop dynamic project ideas and galvanise other members to action form the backbone of every club, but there are too few of them. I believe that every one of us could be that kind of Rotarian if we just take that important first step toward personal involvement--- if we just say YES.

YES—I will lead that project

YES—I will bring in a new member

YES—I will share my ideas and resources to make my Club stronger

**ROTARY SHARES ---- SHARE ROTARY “**

I look forward to a year where we can all say that Rotary Shares and that we all Share Rotary with our friends, neighbors and the community.

Your Directors intend to have programs that will enable you all to be able to say at the end of the year that you have shared Rotary with your fellow members and with the community.

Barry Lambert-- President 2007/2008

# MEMBERSHIP PLAN

**Membership Director** – Ross Ballinger

**Membership Committee:** Ros Savio, Alan Paynter, Brian Furrer,  
Carwas Suhukar

## “ITS TIME TO REPLACE YOUR SELF”

### **Aim**

To ensure that we have a net growth this year of at least 4 members. (We must beat the achievements Barry Freeman and his team )

### **Background**

**Fact.** We have a club that we are all proud of. We all enjoy Rotary and get a lot out of it. Thus we can speak with confidence about benefits of joining Rotary and our club.

**Fact.** The average age of the club has got older over the last 10 years. If this continues the long term future is going to be bleak

**Fact.** Most current members have not introduced a new member to the club and thus replaced them selves. Don't we all have a moral obligation to do this at least once every 5 years.

### **Strategy**

This year's membership plan will have 3 crucial elements that will try and give everyone the opportunity of replacing themselves. Membership growth is not a committee responsibility, Each of us have that responsibility.

**Firstly** we will all have to continue to be on the lookout for potential prospective members. It might be among our friends and acquaintances. It might be with your wife's social groups. We have our garage sale and our trailer raffle coming up. This is the time that opportunities arise. Make sure that you are equipped with the club roll up banner to attract attention and copies of the club brochure.

**The second** thrust will be to organise a couple of nights with high profile and interesting speakers where we can advertise the event and market Rotary to the general public. We want the whole clubs help in obtaining names to invite and to follow up on those invitations.

**The third** factor will be to hold a couple of electronic fireside chats where any one who has joined Rotary in the last year or two can be brought up to speed about the way the whole picture fits together.

Please join with us in continuing the success that we have had this year, and make sure that you have replaced your self before the year is out.

## **RISK MANAGEMENT PLAN**

**RISK MANAGER – Peter Cleary**

*The principals of Risk Management have been applied to most of the major activities currently undertaken by our Club. These have been documented and relevant actions to remove, control or reduce risk have been identified and have or will be implemented at the appropriate time. During 2006-2007 the control measures will be reviewed and re-evaluated in the light of prevailing conditions to ensure their on-going relevance. All documentation is held on file.*

# **TREASURERS REPORT – Graham Coles**

## **General Account**

The General Account reports on the income and expenditure for the club administration and forecasts a surplus of \$1,690 for the 07/08 year.

It is normal for this account to be close to break even for the year as it is not a profit generating activity.

The carry over balance for the 06/ 07 year, at the time of writing this report, is expected to be approximately \$8,000. The surplus for 07/08, if achieved, will add to this figure and result in a carry over figure of approximately \$9,500 into the 08/09 Rotary year.

This account supports all of the club overheads and its income relies essentially on member's fees, fines and a small excess in dinner fees.

The club needs to retain a positive balance in the vicinity of \$6,000 to \$9,000 in order to support any unexpected income shortfall.

## **Activities Account**

This account derives all of its income from fund raising activities. The club normally carries a surplus of \$7,000 to \$10,000 into the commencement of each Rotary year. This surplus, funds the clubs activities for the initial 2 to 3 months until such time as revenue is raised from the Trailer Raffle and the Garage Sale.

The carry forward surplus figure at the time of writing this report is forecast at \$8,000 for the Rotary year 07/08.

As in the past our major fund raising activity is derived from the garage sale, the trailer raffle and wine sales. This year we have added additional forecast income from Christmas tree sales, the Dinner Dance in September and other initiatives that will see us raise in the vicinity of \$59,000 before expenses.

Forecast donations are based on expected fund raising activities. Where we under achieve the distribution of funds is obviously affected. Fortunately in our club under achievement is rare.

Budgets are attached to this report for 2007 /08 and I request that you read them and seek support information if required.
