Water and Sanitation

What we do:

Grants for local communities to construct

- wells
- tanks
- toilets

Water and Sanitation

- households have access to good sanitation and fresh drinking water
- outcomes
 - maintain good health
 - children attend school more regularly
 - water used for plant nurseries and personal vegetable gardens

Income generation and food security

- Focus on the rural sector particularly
 - cocoa
 - vegetables
 - livestock
 - traditional woven cloths

Income generation and food security

- small projects by local people (water supplies, pumps, household toilets and fences)
- rotating credit (temporary loans)

- in-country expertise
- training in business

Education

- work with:
 - primary & secondary schools (100-150 students each)
 - kindergartens (25-30 students each)
- provide libraries, books, scholarships, teacher training, improved facilities & infrastructure
